Case Study

NetSupport

Paul J Hagerty High School Gary Bungart, ETF

Tell us a bit about Paul J Hagerty High School...

Paul J Hagerty High School is a public high school in Oviedo, Florida with approximately 2,250 students.

What challenges were you trying to solve?

We wanted to have the ability to communicate school-wide without a PA system.

Why did you choose NetSupport Notify?

NetSupport Notify is easy to use and has great platform support. We also found it has a wide range of features and offers a high level of security. We use NetSupport School already and found that NetSupport Notify is exactly what we needed to solve our communication issues.

How is the software currently being used in your school?

We have NetSupport Notify installed on all staff computers. When we need to communicate something of importance and cannot use the PA system due to classroom or testing interruptions, we use NetSupport Notify. This makes it possible to communicate messages to our staff instantly without it being a disruption.

Where and how has NetSupport added value?

NetSupport Notify is very intuitive and easy to use. It is a very flexible system that has helped us save time and increase productivity.

Would you recommend NetSupport?

Yes, we would recommend NetSupport.
